WORK EXPERIENCE

Product Designer

Forma

New York

07/2023 - 01/2024

- Pitched and spearheaded an AI-powered claim workflow to automate benefit claim logic, streamlining the submission process and cutting manual operation time by 50% while recovering \$50K in unclaimed benefits at launch.
- Led a 10+ person team to localize Forma's platform across 100+ countries, enabling international expansion for 13+ key clients including Salesforce and Netflix. Generated \$1M in incremental ARR at launch and unlocked \$200M TAM.
- Designed a suite of subscription transparency features — including real-time status notes, benefit card clarification, and automated support routing — bridging internal logistics data to the customer-facing interface, reducing member inquiries by 20% and saving support staff one full workday.

Product Designer

Center for Digital Experiences

New York

08/2022 - 05/2024

- Medscape: Search UX enhancement. Optimized Search UX for data-heavy medical professional platforms, implementing intuitive data visualization to enhance information retrieval efficiency; this solution was adopted by Medscape and drove a 20% increase in NPS based on research with healthcare professionals.
- Amazon Music: Year-end Summary. Pitched the design strategy for Amazon Music: Delivered, which was adopted by Amazon.com and launched as the platform's inaugural year-end summary. Additionally, designed 'Music Link' and 'The Moment' features, achieving an 80% positive feedback score in usability testing.
- American Girl's Scout: Donation Page Revamp. Optimized the donation and registration flows on mobile/desktop platforms through iterative user testing, card sorting, and A/B testing.

Product Designer
